# Manual Testing

## 1. Contract Address

<https://explorer.solana.com/address/32MgzbjVPnwvmeCgePT7ymqyrstpHiUvuwAJCb22tuUC/metadata>

## 2. Mint Authority

Our technical team has successfully checked that the mint authority is disabled for the specified contract address. This ensures that no additional tokens can be minted, providing stability and security for the token holders.

## 3. Decimal Specification

Our technical team has successfully checked that, the decimals have been set to the exact value specified i.e 9. This precision ensures that the token can be traded and utilized as intended, providing a seamless experience for users.

## 4. Solscan Proof

To further validate the information provided, we have attached a Solscan proof that confirms the mint authority disablement and decimal specification. This proof serves as an additional layer of assurance for you and your stakeholders.
